

Adarsh Jain

Adarshjain2703@gmail.com — +91 7389844273 — [LinkedIn](#) — [GitHub](#)

Frontend Engineer • React & Next.js Developer • Responsive Web Developer • Scalable UI Builder

Summary

Frontend developer with hands-on experience in building scalable web applications using React, TypeScript, and REST APIs with a strong focus on problem-solving and system design. Experienced in working with a strong focus on frontend architecture, component design, and scalable UI systems to AI-driven applications, automation workflows, and cloud technologies. Proficient in Agile SDLC, debugging, and performance optimization, with the ability to quickly adapt to new technologies and contribute to real-world engineering solutions. Passionate about shipping fast, writing clean component-driven code, and building user-centric products in startup environments.

Experience

Software Development Intern *Femira (by Meraji), Indore*

Jan 2026 – Mar 2026

React.js, Next.js, WordPress, HTML, CSS, SQL

- Developed and optimized 10+ production-ready frontend features, improving application performance and reducing UI latency by approximately 25%.
- Collaborated in Agile SDLC cycles including requirement analysis, debugging, testing, and deployment workflows.
- Designed and integrated REST APIs for handling dynamic user requests and backend data flow.
- Automated repetitive workflows, reducing manual effort by nearly 30% and improving system efficiency.

Projects

Project Synapse – AI-Powered Platform Dashboards (Customer + Rider) [\[GitHub\]](#) [\[Live\]](#)

Aug 2025 – Oct 2025

.js, Next.js, TypeScript, Tailwind CSS, REST APIs, SQLModel, Leaflet.js

- Built a full-stack delivery platform supporting 500+ simulated users with real-time order tracking.
- Integrated AI-based chatbot workflows, reducing manual issue handling by 30% and improving response efficiency.
- Designed reusable React components, improving UI scalability and reducing development time by 20%.

MEDIBOT – AI-Enabled Teleconsultation System[\[GitHub\]](#)

Jul 2024 – Aug 2024

React.js, Next.js, Tailwind CSS, AI/NLP concepts, REST APIs

- Built a responsive teleconsultation platform supporting 100+ simulated users for healthcare access.
- Implemented symptom-based workflows, reducing navigation time by 25% and improving usability.
- Optimized UI performance and responsiveness, improving load time by 15%.

Women's Day Interactive Website [\[GitHub\]](#) [\[Live\]](#)

Mar 2026

React.js, Tailwind CSS, JavaScript

- Designed and developed an interactive website using HTML, CSS, and JavaScript, ensuring clean structure and maintainable code
- Implemented engaging animations, transitions, and fully responsive, cross-browser design for seamless performance across devices
- Enhanced user engagement through creative UI elements, intuitive layouts, and improved user experience (UI/UX)

Technical Skills

Programming Languages: Python, Java, JavaScript, TypeScript

Frontend Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS, Redux, Role-Based UI, Responsive UI

Design Backend / API: FastAPI, Node.js, Express.js, RESTful APIs, API Integration, JSON Handling

Databases: ySQL, PostgreSQL, SQL

Cloud & Deployment: AWS, Google Cloud

AI & Data: Generative AI, LLMs, NLP, LangChain

Tools & Version Control: Git, GitHub

Achievements

- Secured Top 20 position in GrabHack among national-level teams (Top 5% participants).
- AWS Certified Cloud Practitioner [\[AWS\]](#) Jan 2026 – Jan 2029.
- IBM Generative AI Certification [\[IBM\]](#) Nov 2025 – Nov 2027.
- Oracle Generative AI Professional Certification (Prompt Engineering, LLM deployment) [\[ORACLE\]](#) Oct 2025 – Oct 2027.
- Generative AI internship at SmartBridge and SmartHub Internship: gained experience in AI workflows, prompt engineering, and enterprise AI use cases.

Education

Vellore Institute of Technology, Bhopal

Oct 2022 – May 2026

B.Tech in Computer Science and Engineering (Cloud Computing and Automation)

CGPA: 7.96
